350.org campaigns for an effective, global climate change treaty.

International Day of Climate Action?

This is a wake-up call. A time for both world leaders and ordinary citizens to commit to changing our consumption of natural resources now before the environmental situation gets out of hand.

Sponsored by 350.ORG - a campaign for an effective climate change treaty

Transition Ipswich?

The Transition Initiative helps our community address the twin challenges of diminishing oil and climate change to create a new sustainable lifestyle. Central to the Transition Town movement is the idea that a life without oil could in fact be far more enjoyable and fulfilling. Here's our chance to design the Future Low Carbon Age to be thriving, resilient and abundant

Get Started: Get On Yer Bike!

Let's make these issues more visible and real. Here's how you can help:

JOIN IN ON THE DAY --

- *Dust off your bike, try out cycling in Ipswich.
- *Come for the photo, even if you don't have a bicycle.
- *Dress in bright colours. Decorate your bike & your helmet. Add '350' in.

SPREAD THE WORD!

- *Tell your friends & colleagues, bring your family along
(Children must be accompanied by an adult).
- *Invite your club or church to join in.

The Particulars

Meet on the lawn in front of the mansion in Christchurch Park at 11.00 for a big photo to send to world leaders. The route will take us through the town centre, past the University and finishes at the People's Community Garden around 12.30. Plan to pack a picnic lunch for their Open Day.

Please register your intentions to come in advance if possible.
